

# Folding Fabric

## ON COMIC BOOK BOARDS

A CHEAT SHEET FROM *Right Sides Together*

- 1. Fold** fabric (at least 1/2 yd.) selvedge-to-selvedge. Then fold both selvages back to the folded edge. Your fabric should now be folded twice “hot-dog” style.

- 2. Place** board within four inches from left side of the fabric, aligned with the top fold. Fold left side of fabric over the top of the board.

- 3. Roll it like you stole it.** Roll the board to the right, wrapping the fabric around it. Secure the end with a pin, and you're good to go!
